OFFICIAL ROSTER

OF THE

ANNUAL CONVENTION

CHICAGO 1944

The

Independent Telephone Pioneers

IF all that has been experienced by these pioneers of a great and necessary industry, could be described here, the story would be full of adventure and romance.

Their achievements are the results of co-operation.

"Successfully to accomplish any task it is necessary not only that you should give it the best there is in you, but that you should obtain for it the best there is in those under your guidance," and the perfect co-operation has completed this work as a marvelous, perfect whole.

"When be build, let us think that we build forever. Let it not be for present delight, nor for present use alone, let it be such work as our descendants will thank us for, and let us think, as we lay stone on stone, that a time is to come when those stones will be held sacred because our hands have touched them, and that men will say as they look upon the labor and wrought substance of them:
'See! this our fathers did for us!' "
